ORDER:-

According to the orders issued in the G.O. first read above the Superintendent Engineers of Circle should also check measure works at random in any particular year as may be directed by the Chief Engineer from time to time. In pochampad project, the Chief Engineer had issued instructions to the Superintending Engineers that they should check measure atleast six important works in a year. In Nagarjunasagar Project also the Chief Engineer has issued instructions to the Superintending Engineers to check measure atleast works each financial year. In Srisailam project, the Chief Engineer had however, issued instructions to the Superintending Engineers that they should check measure works costing more than Rs. 5.00 lakhs subject to a minimum of six works in a financial year. In the G.O. firsty read above the discretion for fixing the number of works to be check measured was left to the concerned Chief Engineers. It was therefore, considered necessary to prescribe a uniform procedure for check measurements by the Pochampad Projects which are under the administrative control of public works department projects wing. It was also considered that in projects where the quality of work is to be ensured, check measurement cannot be restricted by numbers specially when the jurisdictions of the Superintending Engineer are limited and the works are concentrated.

2. In view of the position mentioned in para 1 above, the government have decided that the Superintending Engineers of the Nagarjunasagar, Srisailam and Pochampad Projects should check measure all works costing over Rs. 5.00 lakhs. The Chief Engineers of Nagarjunasagar, Srisailam and Pochampad Projects are accordingly requested to issue necessary instructions in this regard to all the Superintending Engineers, under their control.

(BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA
PRADESH)

M. Gopalkrishnan,
Secretary to Government.
