The above working Group in its report submitted to the Government of India in March, 1963 made certain recommendations for simplification of the accounting work without affecting the basic structure of Public works Accounts. Almost all the recommendations of the above working group were accepted with slight modifications by the Government of India in the Ministry of Works, Miscellaneous and Housing. Further, in respect of one particular project a smaller committee went into the question of avoiding duplication of accounts and records and made certain recommendations. Based on these recommendations, the comptroller and Auditor general approved certain changes in the existing procedure for maintaining the public works accounts. The Accountant General, Andhra Pradesh requested this Government to consider the above decisions for adoption in the public works department in this state.

As suggested by the comptroller and Auditor-General of India and the Financial Adviser and Chief Accounts Officer, Nagarjunasagar adopting, the Chief Engineer, (General) has considered the question of adopting (1) the decisions taken by the Government of India, Ministry of works and Housing on the recommendations of the working group, (2) the recommendations of the smaller committee as approved by the comptroller and auditor general of India and (3) the remarks of the Financial Adviser and Chief Accounts Officer, Nagarjunasagar Project and submitted his recommendations to Government for consideration.
